

**NOTICE TO NATURAL GAS CUSTOMERS OF THE TOWN OF CENTREVILLE**  
Public Awareness Damage Prevention Notice

The Town of Centreville owns and operates a natural gas distribution system in and around the Town of Centreville. The purpose of the gas system is to provide a reliable and safe, economical source of energy for heating purposes to the homes and businesses adjacent to the underground gas pipelines. The pipeline system has the capacity to reliably deliver natural gas to the customers.

The hazards of natural gas are that it is odorless, colorless, tasteless, and lighter than air and can ignite and/or explode with tremendous force when mixed with the right amount of air. Prevention measures taken include adding odorant to the gas to give it that distinctive smell, similar to rotten eggs, to warn us of its presence, testing the odorant level each calendar quarter and performing annual gas leakage surveys. Anyone who may smell this odor in the Town of Centreville or notice any gas unusual conditions on or near gas mains, vents, service lines, meter sets, or especially inside of a building should call the Town of Centreville immediately. If you smell a strong gas odor inside a building, notify everyone in the building to leave. Do not operate any switches or use the phone. Go a safe distance away upwind of the gas smell and call the Town of Centreville. With any gas leak protect life first then property, and then notify the Town of Centerville.

Pipeline markers are maintained along the pipeline right of way to inform the public of the underground gas line location. State and federal laws require excavators to notify the state One-Call Center 48 hours before digging. To obtain any information concerning the pipeline locations call the Town of Centreville. If any excavation is planned you must notify the One-Call Center, which will notify the Town of Centreville to locate any gas lines. Call 48 hours before digging. The Town of Centreville maintains membership in the State One-Call Center.

Customers should report gas leaks or other gas related information to the Town of Centreville. The Town of Centreville phone number is (601) 645-5218 (If Town Hall is closed, please call Centreville Police Department at (601) 645-5917). This information and pipeline signs are provided as public awareness and damage prevention awareness notices.
